

# ECO-WRAP

Economical Labeller for wrap  
around labelling applications

For the budget conscious the Eco-Wrap sports the same powerful Servo Herma 400 head but eliminates many bells and whistles to give a cost effective automatic wrap labeler.

Designed to meet the requirements for precision and economical labelling tasks.

It includes a 7' long Stainless Steel conveyor, 14" Wrap belt, open frame Stainless stand, a newly upgraded Stainless Steel control box that is ready to accept a touch panel optional PLC should many extra options need to be added.

Our Eco Series cuts out the frills but gives super consistent Labeling at a very affordable price!

## Accessories

### Container Handling Options

- Prism roller system
- Tall Wrap Belts
- Reject Station
- Product Aligner - Belt System
- Product Aligner - Worm System

### Label Handling Options

- Oversize infeed reels
- Tall label extenders
- Motorized power rewind
- Motorized power unwind
- Low and broken web detectors
- Hot Stamp Coder
- Thermal Printers
- Missing Label Detector
- Luminescence Detector
- Bar Code Readers

### Other Options

- Safety Guarding
- Extended Conveyor
- Verification System
- Vision Systems
- Other Voltages

### Optional Prism Roller System

A Prism aligner can ensure supreme accuracy by grabbing a difficult container against the wrap belt to align and rotate it a fraction of a second before the label is inserted.

### Wrap around System

The Wrap belt is fully adjustable with a solid back plate that has foam rubber backing. Different heights and lengths are available for varying applications.

### Patented Label Sensor

Patented Inductive label sensor eliminates the need to play with photo electrics which can dust up.

The sensor can mount right at the dispense blade for supreme accuracy and can handle even Mylar labels.
