

PREMIER-WRAP

High-Speed Wrap Around Labeller

Our Premier wrap includes the powerful Servo Herma H400 head capable of dispensing labels at 160 Meters/minute. Labeling speeds depends on label and bottle size but speeds in excess of 150/minute are obtainable.

The stainless steel base Cabinet, overhead color touch screen, includes recipe management.

The heavy duty mounting plate gives extra rigidity for preferred mounting of Coders, Vision systems, scanners or other options.

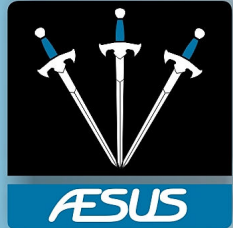

Raised bed Stainless Conveyor, dial indicators, inset scales, infeed wheel, and wrap belt are all standard.

We try to include on our Premier Series everything needed for the ultimate in Labeler friendliness!

- Thermal Printers
- Missing Label Detector
- Luminescence Detector
- Bar Code Readers

Other Options

- Safety Guarding
- Extended Conveyor
- Verification System
- Vision Systems
- Other Voltages

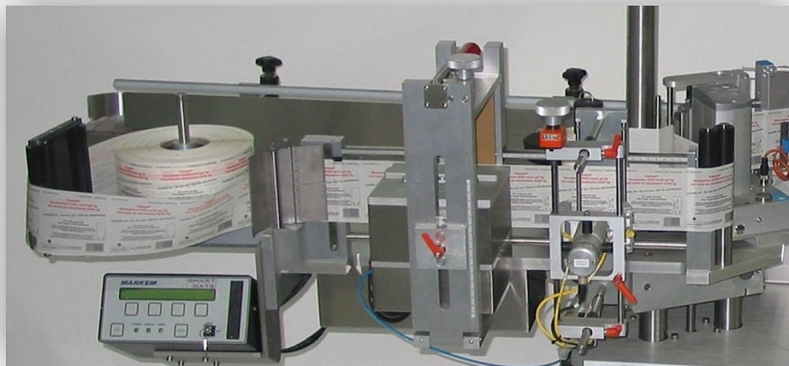

Easier Set ups

Dial indicators for ease of repeat set ups, scales inset into shafting, and heavy duty 48mm diameter shafting for effortless adjustments are all included where needed.

Optional Prism Roller System

A Prism aligner can ensure supreme accuracy by grabbing a difficult container against the wrap belt to align and rotate it a fraction of a second before the label is inserted.

Heavy Duty Mounting Plate

The heavy duty mounting plate is arranged conveniently along the length of the labeller so that it does not stick out into the aisle way. It is solid to give extra rigidity for preferred mounting of Coders and vision systems.

Recipe Management

User friendly Color Touchscreen incorporates recipe management for easy recall of previous set ups.
