

SPICE-LINES

Up to 350 per minute

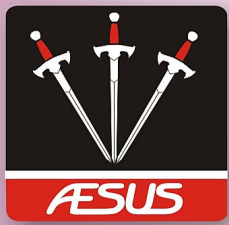

Multiple Lines Compete with Sanitary conveyors

High Speed Unscramblers feed the lines

- ❑ We were given the task to develop an auger filler to run at speeds in excess of 180/minute per head. In fact we have tested a single head filler with speeds in excess of 200/minute, but we are being conservative in our claims!
- ❑ How do we do it? Solid engineering and very clever indexing systems.
- ❑ We have even put two auger fillers on a twin conveyor and achieve speeds approaching 400/minute on "plastic spice jar" containers.
- ❑ You can see videos in action on www.aesus.com/Downloads.htm The only problem is the cameras are almost not quick enough to be able to capture the speeds.

We Manufacture the Complete System

SPICE-LINES

Up to 350 per minute

Unscramblers

Shrink Sleeving

**Single Head
Extreme Speed
Auger fillers**

Delta PS Labelers

**Twin Head
Extreme Speed
Auger fillers**

Premier PS Labelers

Delta Cappers

Liquid Fillers

Premier Cappers

Sanitary Conveyors

 All Manufactured under one roof
